

European Forum on Philanthropy and Research Funding

Evaluating research outcomes and impact **Workshop**

Date: 5 November 2008

Venue: 27th floor, Hilton Hotel, Waterloolaan 38 Boulevard de Waterloo, Brussels.

Programme:

09:00 – 09:30	Registration + welcome coffee
09:30 – 10:00	Introduction
10:00 – 13:00	Session 1 Coffee and food available to participants Developing common tools for evaluation The debates and work should lead to documenting of the purposes for which foundations rely on evaluation, what they measure and how often they measure it? This should then set the ground work for identifying the extent to which common evaluation tools can be developed for foundations. <u>External Contributors:</u> <ul style="list-style-type: none">▪ Gunnar Sivertsen, Norwegian Institute for Studies in Innovation, Research and Education▪ Alexis-Michel Mugabushaka, ESF Forum on Evaluation of Funding Schemes and Research Programmes
13:00 – 14:00	Lunch
14:00 – 17:00	Session 2 Coffee and food available to participants Bibliometrics The session should be the opportunity to investigate and share experiences on: How easy is it to develop and implement guidelines for standard acknowledgment practice, and what practices have funders developed to combine quantitative and qualitative studies. The workshop will also be an opportunity to look into the emerging studies on the impact of open access on bibliometrics. <u>External Contributors:</u> <ul style="list-style-type: none">▪ Robert Tijssen, University of Leiden Center for Science and Technology Studies▪ Juliet Walker, British Medical Journal
17:00 – 17:20	Conclusion
