

## **Selected bibliography: integration of disability-linked requirements when responding to disasters and emergency situations**

Last update: February 2006

### **Disability in conflict and emergency situations : focus on tsunami-affected areas /**

Maria Kett, Sue Stubbs, Rebecca Yeo. - Woking : International Disability and Development Consortium (IDDC), 2005. - 60 p.

*Report by the International Disability and Development Consortium (IDDC) aimed at promoting the inclusion of disability in emergency, conflict and refugee programmes. The particular objectives are to assess the extent of inclusion, networking and resources in post-tsunami contexts. The geographical focus was mainly on Sri Lanka, India and Indonesia. Includes a bibliography.*

### **International disability rights monitor : disability and early tsunami relief efforts in India, Indonesia and Thailand. - Chicago : International Disability Network, 2005. - XIX, 66 p.**

*The International Disability Rights Monitor (IDRM) project represents an ongoing collaboration between the Center for International Rehabilitation (CIR), the Office of the United Nations Special Rapporteur on Disabilities, Disabled Peoples International (DPI), and many other international and national disability groups. The purpose of this special report is to provide information on the status of people with disabilities in countries devastated by the December 2004 tsunami that struck Southeast Asia. It highlights the on-going need for local, national, and international agencies to include people with disabilities in relief and reconstruction plans.*
