Programme Organisers

Stiftung Mercator is a private and independent foundation. Through its work it strives for a society characterised by openness to the world, solidarity and equal opportunities. In this context it concentrates on strengthening Europe; increasing the educational success of disadvantaged children and young people, especially those of migrant origin; driving forward climate change mitigation; and promoting science and the humanities. Stiftung Mercator symbolises the connection between academic expertise and practical project experience. As one of Germany's leading foundations, it is active both nationally and internationally. Stiftung Mercator feels a strong sense of loyalty to the Ruhr region, the home of the founding family and the foundation's headquarters. www.stiftung-mercator.de

The China Global Philanthropy Institute (CGPI) is a non-profit organization dedicated to supporting innovative, high-impact philanthropy through education and training. Founded in 2015 by prominent Chinese and American philanthropists - Bill Gates, Ray Dalio, Niu Gensheng, He Qiaonv, and Ye Qingjun - CGPI has created a global philanthropy education alliance which involves major philanthropists, internationally renowned universities, influential foundations, and non-profit organizations. The alliance encourages greater professionalization within the philanthropic sector, while providing a platform for greater understanding, exchange, and cooperation. The Institute's flagship programs are the Global Philanthropy Leaders (GPL) and the Executive Management in Philanthropy (EMP) courses. CGPI is based in Shenzhen, with an office in Beijing and official partner organizations throughout the world. <http://en.cgpi.org.cn>

As a leading platform for philanthropy in Europe, the European Foundation Centre works to strengthen the sector and make the case for institutional philanthropy as a formidable means of effecting change. We believe institutional philanthropy has a unique, crucial and timely role to play in meeting the critical challenges societies face. Working closely with our members, a dynamic network of strategically-minded philanthropic organisations from more than 30 countries, we:

- Foster peer-learning by surfacing the expertise and experience embedded in the sector
- Enhance collaboration by connecting people for inspiration and joint action
- Represent philanthropy for favourable policy and regulatory environments
- Build a solid evidence base through knowledge and intelligence
- Raise the visibility of philanthropy's value and impact
